

A photograph of a child building a wooden marble track against a concrete wall. The child is standing on a silver step ladder, reaching up to adjust a horizontal wooden beam. The track is made of several vertical wooden posts connected by horizontal beams, creating a series of loops and drops. The child is wearing a red jacket and blue pants. The background is a grey concrete wall with two windows that have blue frames. In the foreground, there are some wooden planks and a small green object on a stick. The overall scene is outdoors, and the ground is paved.
